Subject: RE: TAC Meeting 2 Agenda
Attachments: 2017 Ches Bay WQ Criteria Addendum Revised Draft 1_24_2017.docx

Hi Folks,

At the last meeting there was at least one question regarding the varied bases for setting up a management segment scheme in Chesapeake Bay. Here is a document link for your reference:

http://www.chesapeakebay.net/content/publications/cbp_13270.pdf "Technical Support for the Identification of Chesapeake Bay Designated Uses and Attainability".

Additionally, I am sharing the draft of our most recent tech document that includes monitoring options and considerations for dissolved oxygen assessment – please see the attached document. It is in review with our Scientific Technical Advisory Committee. It is DRAFT - not for public release at this time but is expected to be published online later this year pending approval by the committee.

Cheers,
Peter Tango

Subject: TAC Meeting 2 Agenda

Hello Everyone,

Our next TAC meeting to discuss DO Criteria options in Mount Hope Bay and Taunton River Estuary is coming up next week. We'll send some materials to review, directions to the meeting site, and call-in info for offsite participants in the next few days. Please let me know in advance if you will be calling in rather than joining in person.

See the attached agenda for discussion topics for this meeting.

See you next week,

Jennifer
